Saurashtra State Dispensary

No. 44 of 15-

9/3/15

The Medical Officer
Saurashtra State Dispensary

To

The Director of Saurashtra

State

I have the honour to state
for your information that a large
number of the medicines in daily
use have run short owing to
a very large attendance of patients
in the current official year. Even
Sulphate of Quinine & purgative
powders &c have run short &
unless there are replenished soon
the public will suffer.

I would therefore request you
to kindly obtain the sanction for an
amount of Rs 200 so that I
might order them from Bombay
as early as possible. The increased
expenditure would of course be

Charged to the next year.

In the event this letter is forwarded on for sanction I would request to be kindly informed whether I can order the ~~drugs~~ in anticipation of sanction to avoid delay.

Inspected Dispensary ^{Med.}

The requirements that strike my attention are as follows:—

Beds in the wards are not suitable, the height from the ground of some of the Cots is a source of danger to patients who are at all seriously ill.

In my inspection report for 1911 I referred to tubular pattern iron bed-stands made ~~any~~ by means which are said to be especially ~~of~~ ^{to} be made. These if still obtainable would, I think, be suitable but might be got as an experiment.

The roof of the Dispensary & medical hall officer's office consists of Mangalore tiles with out any planking beneath them. Consequently the tiles are easily disturbed by a high wind. Teakwood planking ~~such~~ such as has been provided in the operation room, as required here.

The floor of the Store Room.

is of mud. It should be paneled.

The mortuary roof wants planing with teak wood in same way & the walls require attention.

The bedside tables are quite unsuitable pattern.

The medical officer's quarters are not very comfortable. They are dark & badly ventilated & only one room has a piece floor.

The Dispensary was in good order & evidently well attended.
